A TASTE OF VANCOUVER

Arrive in Vancouver

- Day 1: Your expedition cruise starts with an overnight stay in Vancouver, a bustling and beautiful seaport city set against steep mountains. Vancouver's various neighbourhoods buzz with world-class farm-to-table cuisine. Don't miss Gastown, Vancouver's Victorian quarter. Here you'll find the 553-foot Vancouver Lookout, which offers a perfect 360-degree panoramic view over the city.

YOUR EXPEDITION BEGINS

Explore British Columbia's largest city

- Day 2: After an enjoyable breakfast at your hotel, we'll take you on a city tour showcasing the main highlights of Vancouver. When the tour is over, you'll be dropped at the pier where your expedition ship MS Roald Amundsen awaits you. Settle in and take your time to get to know the ship before listening to the safety briefing. Your knowledgeable Expedition Team will lead the way on excursions and landings. Get to know them and sit down to enjoy a welcome dinner — your adventure is now underway.

CANADA'S INSIDE PASSAGE

Enjoy sublime scenery as we sail the Inside Passage

- Day 3: The Inside Passage coastal route takes us through the great North American Pacific Fjordland, a protected stretch of water over 930 miles long. Unlike other cruises which pass through at night, you'll be able to view the sublime scenery in all its glory during the day.
- Our smaller expedition ship allows us to reach areas that larger vessels can't, meaning you'll get to explore lesser-travelled channels with breathtaking scenery. Keep your cameras and binoculars at the ready to catch sight of whales, including humpback, fin, minke and perhaps even orcas.

UNSPOILED MISTY FJORDS

Revel in a wilderness where wildlife thrives

- Day 4: Part of the Tongass National Forest, Misty Fjords is a pristine wilderness of evergreens, waterfalls and snowcapped peaks. The revered naturalist writer John Muir described the area as one of the most beautiful places he'd ever seen.
- Weather permitting, you'll join the Expedition Team to tour Misty Fjords in our small expedition boats or take kayaks out.
- Misty Fjords is rich in wildlife. You'll scan for mountain goats, black and brown bears and moose as you explore. The waters are home to Pacific salmon, otters, Steller sea lions, harbour seals, orcas and Dall's porpoises. Skywards, you might spot herons and Bald Eagles.

WRANGELL'S PETROGLYPHS

Visit one of Alaska's oldest harbour towns

- Day 5: We continue cruising the Alaskan islands towards Wrangell. Only a mile out of town, Petroglyph Beach is where you'll see ancient rock carvings among the sand.
- Visit the local museum to learn more about Wrangell's fascinating past. Now part of the United States, it was once governed by Britain, Russia and the Lingít people. Cross to Shakes Island, where the Chief Shakes Tribal House and totem poles tell the story of the Indigenous Lingít people.
- Hikers will enjoy the nature trails, surrounded by alluring scenery at the mouth of Stikine River, and the foot of Mount Dewey at the edge of the rainforest.

BLENDED CULTURES OF SITKA

Take in Sitka's views and mix of cultures

- Day 6: Surrounded by Tongass National Forest, Sitka is only accessible by sea or air. Get out on deck for stunning views of the Sisters Mountains and Mount Edgecumbe volcano.
- Inhabited by the Lingít people for 10,000 years, the town was settled by Russian explorers around the turn of the 19th century before being sold to the United States after Russia lost the Crimean War. Today, Sitka has roots in all three cultures.
- A visit to the Russian Orthodox cathedral and Russian Bishop's House is recommended. Admire ornate Haida and Lingít totem poles at Sitka National Historical Park and enjoy a walking trail through the forest to the ocean.

ICY STRAIT EXPEDITION DAY

Embrace the thrill of wild Alaska

- Day 7: Today is another day of exploration as we sail into Icy Strait and take a closer look at some of the islands. Possible destinations to explore include George Island, Inian Islands and Idaho Inlet but – as ever – we will gauge the weather conditions and wildlife spotting opportunities to decide upon the best location.
- Using our expedition boats, we may get close to some of the rocky shores here, with the possibility of a landing and nature walk. The coast in this region grows more rugged the closer we get to the open sea, with rocky pinnacles and sea caves galore. Keep an eye out for whales, as well as sea lions, orcas and Bald Eagles.

GLACIERS OF ICY BAY

Spot wildlife in these glacier-fed waters

Day 8:

Today is an exploration day in Icy Bay. Three glaciers – Guyot, Yahtse and Tyndall – regularly calve into this bay. If conditions allow, you'll explore in our small expedition boats or by kayak, immersing you in the remarkable beauty of this icy landscape.

Wildlife abounds in the Gulf of Alaska, offering unrivalled photography opportunities. Humpback whales, orcas, Stellar sea lions, sea otters and harbour seals lazing on floating chunks of ice are often seen in these waters.

ACROSS THE GULF OF ALASKA

A day of relaxation and birdwatching at sea

Day 9:

Your cruise continues across the Gulf of Alaska. It's the ideal time to enjoy onboard facilities such as the infinity pool, hot tubs, and sauna. Go for a run, hit the gym, or enjoy a massage in the spa.

In the Science Centre, the Expedition Team invite you to join lectures about subjects such as Alaska's wildlife, geology, glaciology, history and culture.

Relax in the Explorer Lounge & Bar and share a drink with your fellow guests, or just sit back and enjoy the view. See if you can spot all three species of North Pacific albatross. The Laysan and Black-footed Albatross are often sighted, but the Short-tailed Albatross is harder to spot.

KODIAK'S BROWN BEARS

Explore the home of the Alutiiq people

Day 10:

Kodiak Island got its nickname the 'Emerald Isle', due to its Spruce forests and grasslands, and it's the second-largest island in the US.

The island's most famous inhabitants are Kodiak brown bears. Around 3,500 of them live in the Kodiak National Wildlife Refuge, which covers two-thirds of the island.

We'll search for these powerful creatures in their natural habitat, marvelling at their size and grace from the safety of our small expedition boat. This perspective offers a rare glimpse into the lives of these bears against the backdrop of Alaska's breathtakingly rugged landscape.

BROWN BEARS IN KATMAI

Spot brown bears in Katmai National Park

Day 11:

Your adventure continues in the four million-acre Katmai National Park, which has over a dozen active volcanoes. Katmai is also home to more than 2,000 protected brown bears – the largest concentration in the world.

Accompanied by an experienced bear guard, we'll be safely scouting for them from the deck or in our small expedition boats. They might be foraging for berries, digging for clams or catching fish in the stream.

Depending on conditions, we might visit either Geographic Harbor, Kinak Bay or Kukak Bay.

REMOTE BAYS OF THE ALASKA PENINSULA

Explore rugged scenery in an untamed wilderness

Day 12:

The Alaska Peninsula is an untamed wilderness and a haven for wildlife. The region is characterised by its raw coastal landscapes, towering mountains and secluded bays.

Join your Expedition Team for close exploration of hidden bays and inlets along the shoreline, offering the opportunity to scout for bears, Bald Eagles, and marine species like sea otters and humpback whales. Learn about the geological evolution of the region, appreciating how natural forces have sculpted the unique topography around you.

THE GHOST TOWN OF UNGA

Experience a deserted Alaskan town

Wild and deserted, Unga Village is an abandoned yet picturesque settlement on the southern end of Unga Island.

Day 13: It was settled by Unangaŋ in 1833 but was abandoned in 1969 as subsistence fishing proved insufficient to support living here. Today, the few wooden buildings that remain are the only evidence that people once lived here.

A carpet of pink lousewort, fireweed and other wildflowers surrounds the abandoned shacks as nature has gradually taken over. Experience the eerie beauty of this place during a nature landing with our small expedition boats.

DISCOVER DUTCH HARBOR

Learn the fascinating history of America's biggest fishing port

America's largest fishing port, Dutch Harbor is a fascinating place to visit. As we sail towards it you may see Mount Makushin, a sometimes-steaming volcano reaching almost 6,000 ft.

Day 14: Here, you'll learn about the local Indigenous Unangan people at the Museum of the Aleutians. Visit the Russian Orthodox Cathedral or tour the WWII museum commemorating the battle that took place here in 1942.

Scout for Bald Eagles and puffins. Foxes, lemmings and wild horses thrive on land and whales, sea lions and porpoises in the waters. Dutch Harbor is where the reality television series *The Deadliest Catch* was filmed, following crab fishermen at work under extreme conditions.

LEARNING AND LEISURE

Relax and reflect as we cruise along the coast

Day 15: Part of being on an expedition cruise is taking time to connect with the sights and sounds of the world around you. A day at sea lets you do just that. Sit back and take in the panoramic views from our Explorer Lounge & Bar, from the infinity pool or from the outdoor hot tubs.

Keep scanning the shores, seas and skies for puffins, auklets, and murrelets, especially closer to the coast. If you're lucky, you might glimpse the Red-legged Kittiwake, only found in this part of the world.

You'll learn more about the region's geography, climate and birdlife from the Expedition Team in the Science Centre.

UNANGAN LIFE IN ST PAUL

Look out for wildlife on the largest Pribilof Island

The windswept island of St Paul is home to the largest Unangan community in the US, numbering around 480. You can visit the historical remains of *barabaras* here – traditional dwellings built half-underground to protect against the sea winds.

Day 16: St Paul is also designated an Important Bird Area, and around 300 species of migrating birds use it as a resting point. Scan for Horned and Tufted Puffins, the Pribilof Sandpiper and the rare Red-legged Kittiwake.

On the shore, you may find northern fur seals waddling and playing – half the world's population of these charming animals live on these islands.

WILD ST MATTHEW

Experience this wild, remote and isolated island

Day 17: Part of the Alaska Maritime National Wildlife Refuge, 200 miles from the nearest village, St Matthew Island is wild, remote and isolated. You'll see traces of abandoned buildings between black sand beaches and wildflower-dotted tundra. A few hardy souls have tried – and failed – to make a home here.

Today, the only inhabitants are birds, including thousands of puffins, murres and cormorants. On our nature landing, if we're lucky, we'll see the rare McKay's Bunting, which breeds almost exclusively here – and listen out for the sound of the singing vole, named after its unusual warning cry.

CROSSING THE BERING SEA

Watch for wildlife and relax at sea

Day 18:

As we cruise the Bering Sea, you'll have Russia to the west and the United States to the east.

Natural wonders abound here, so keep an eye out for humpback whales, and seabirds wheeling through the skies.

This is your last full sea day, so relax and enjoy your time on board. The Expedition Team will recap the highlights of your Alaskan adventure, and you can continue your journey of discovery in the Science Centre.

NO PLACE LIKE NOME

Learn about Nome's golden past

Day 19:

Prospectors first came to Nome in 1898, and people still hunt for gold here today. You'll see evidence of the Gold Rush all around, including abandoned dredges, turn-of-the-century steam engines and old railroad tracks, lending the town a unique atmosphere.

Nome was the end point of three of Roald Amundsen's great polar expeditions, including an attempt by air to reach the North Pole in 1926.

Naturally, Nome is a fitting place to bid farewell to our own MS Roald Amundsen, before flying back to Seattle, where you'll enjoy an overnight stay.

SCENIC SEATTLE

End your adventure in the Emerald City

Day 20:

Your Alaskan adventure comes to an end in Seattle.

If you have time before your onward journey, why not head to the Seattle Aquarium to see sea otters and a giant Pacific octopus. Or for incredible views of Puget Sound and the surrounding mountains, take a stroll through the nine-acre Olympic Sculpture Park, admiring the work of renowned artists as you go.

For a feast of the senses, visit the famous Pike Place Market. Operating for over a century, this lively farmer's market boasts everything from buskers and bars to salmon-throwing fishmongers!

If you have the time to go farther afield, we recommend booking a Post-Programme with us and discovering some of the region's natural highlights.

Im Preis inbegriffen

Flüge

- Flug in der Economy-Class von Nome nach Seattle nach der Expeditions-Seereise

Transfers

- Transfer vom Hotel zum Schiff in Vancouver inklusive einer Stadtrundfahrt vor Ihrer Expeditions-Seereise
- Transfer vom Schiff zum Flughafen in Nome nach der Expeditions-Seereise
- Transfer vom Flughafen zum Hotel in Seattle nach der Expeditions-Seereise

Hotel

- Übernachtung inklusive Frühstück in Vancouver vor der Expeditions-Seereise
- Übernachtung inklusive Frühstück in Seattle nach der Expeditions-Seereise

Expeditions-Seereise

- Das Expeditionserlebnis ist auf jeder Fahrt in deutscher Sprache verfügbar
- Aufenthalt in einer Kabine Ihrer Wahl
- Täglich Frühstück, Mittag- und Abendessen
- Wein, Bier und Spirituosen zu den Mahlzeiten, den ganzen Tag über und in der Nacht erhältlich (vorbehaltlich der Schankgesetze, ausgenommen Premium-Getränke)
- Kaffee, Tee und Softdrinks den ganzen Tag
- Mahlzeiten und Take-away während der Öffnungszeiten des Restaurants Fredheim den ganzen Tag über erhältlich
- Gehobene Küche im Restaurant Lindstrøm für Gäste unserer Suiten inbegriffen
- Nachfüllbare Trinkflasche
- Expeditionsjacke, Rucksack oder sonstige Expeditionsausrüstung von Hurtigruten Expeditions
- Professionelle Fotos von Ihrer Reise, aufgenommen von unserem Bordfotografen
- Kostenloses WLAN. Streaming wird allerdings nicht unterstützt
- Nutzung von Sauna, Whirlpools, Pool, Fitnessraum, Lounges und mehr
- Trinkgeld inbegriffen. Fantastischer Service ist bei HX Standard – wenn Sie jedoch etwas extra hinterlassen möchten, ist das immer willkommen
- Im Reisepreis enthaltene Aktivitäten

Aktivitäten an Bord

- Vertiefende Vorträge und Diskussionen mit Experten unseres Expeditionsteams
- Voller Zugang zum schiffseigenen Science Center
- Wissenschaftliches Forschungsprogramm, das es den Gästen ermöglicht, sich an laufend Projekten zu beteiligen
- Professionelle Tipps und Tricks für die besten Landschafts- und Tierfotos von unserem Bordfotografen
- Tägliche Treffen mit dem Expeditionsteam zur Vorbereitung auf den kommenden Tag

Landausflüge

- Begleitete Anlandungen mit kleinen Expeditionsbooten
- Verleih von Stiefeln, Wanderstöcken und allen benötigten Ausrüstungsgegenständen für die Aktivitäten

- Wertvolle Tipps und Hilfestellungen von unseren Bordfotografen

Hinweise

- Alle geplanten Aktivitäten sind abhängig von den Wetter- und Eisbedingungen.
 - Änderungen mit Blick auf Ausflüge und Aktivitäten vorbehalten.
 - Bitte stellen Sie sicher, dass Sie alle Bestimmungen zur Einreise und Einschiffung erfüllen.
 - Je nach Abflugzeit in Anchorage kann eine Übernachtung erforderlich sein.
-

Nicht im Preis inbegriffen

- Zusätzliche Übernachtung(en), sofern aufgrund der Abflugzeit Ihres internationalen Fluges erforderlich
- Reiseversicherung
- Gepäckverladung
- Optionale Landausflüge unter der Leitung unserer lokalen Partner
- Optionale Aktivitäten in kleinen Gruppen mit unserem Expeditionsteam
- Optionale Behandlungen im Spa- und Wellnessbereich an Bord
